(XI) EXCHANGE RATE RISK AND RELATED FINANCIAL INSTRUMENT HEDGING

The Group has currency exposures arising from sales or purchases by operating units in currencies other than the

(I) OVERVIEW OF OPERATION DEVELOPMENT

Business Highlights

Resilient operation efficiency	• Revenue reached RMB34.217 billion, with a year-on-year increase of 1.36%. • Net profit attributable to equity shareholders of the Company reached RMB2.416 billion, demonstrating resilience in hardship.
Remarkable achievement in the integrated development	• Aggregate sales reached 143.23 million tons, with a year-on-year increase of 9%. • Concrete sales reached 31.81 million cubic meters, with a year-on-year increase of 17%. • Eco disposal volume reached 4.41 million tons, with a year-on-year increase of 50,000 tons.
Significant progress in the overseas expansion	• Revenue reached RMB7.984 billion, with a year-on-year increase of 47%. • Overseas sales of cement reached 16.20 million tons, with a year-on-year increase of 37%. • Overseas capacity exceeded 22.50 million tons/year, with a year-on-year increase of 8%. • Closing the deal of cement project in Nigeria and aggregate project in Brazil, accelerating the global presence.
Dedicated to green and low-carbon development	• The Group's blended 1BT0.082 m ( )]TJET8623B250 Tm(Ded)ut, wiached millionand low-carbo1.66 p

- Expediting global presence. During the Reporting Period, the new clinker line with 3,000 tons clinker/day in the Nacala plant in Mozambique was commissioned; the biomass power generation plant in Maweni in Tanzania was connected to the grid and generated electricity; the 2,000 tons clinker/day production capacity was upgraded to 3,000 tons/day in the Chilanga plant in Zambia; the 1,217 tons clinker/day production capacity was renovated to 2,500 tons/day in Ndola; 3,300 tons clinker/day production capacity was upgraded to 5,500 tons/day in the South Africa plant; the new line of 2,000 tons clinker/day production capacity in Malawi was developed; 300,000 tons/year grinding station in Zimbabwe moved forward successfully; successful completion of the acquisition of assets to increase cement production capacity in Nigeria to 10.60 million tons per annum and aggregates production capacity in Brazil to 8.8 million tons per annum. By the end of 2024, the capacity operated and being built in overseas countries is over 25 million tons.

- Technology innovation fuels growth momentum. During the Reporting Period, the Company has developed the ultra-high performance concrete with compressive strength over 600MPa, the first of its kind domestically; self-developed grinding aids and mortar have been applied in African plants; super low cost ductal and synthetic water reducers have been widely used; the Company obtained 19 patent licenses and 8 patent licenses for utility model.

- Consolidated digital innovation foundation and capability. During the Reporting Period, HIAC system has been launched in 8 cement plants, HATS system has been established in 5 aggregate plants, and HOPE system (a production expert system for the overseas plants) has been deployed in Gayur plant and Zambia, facilitating the plants in cutting cost and increasing efficiency. The "Key Technology of Low Carbon Intelligent Manufacturing of Cement" led by the CEO and executive Director, Li Yeqing, was selected for the National Industry and Information Energy Saving and Low Carbon Technology Equipment Catalogue and won the Annual Sole Innovation Award of World Cement Association. The information and industry fusion has acquired the 3A authentication, being the highest level nationally. Information security projects have been shortlisted as Top 20 Excellent Internet Security Project in China. 6 plants including Cantian, Zigui and Wuxue have been awarded the "intelligent plant", "digital workshop" and "5G plants" at the municipal level.

- Constant dedication to sustainable development. For the year, the consumption of alternative fuels reached 4.41 million tons, increased by 50,000 tons as compared to last year; combined TSR of the Company reached 21.66%, representing a 1.66 percentage points increase compared to the previous year. Domestically, TSR has shown a significant increase of 3.71 percentage points, reaching 26.7%. Diwei plant's project, aimed at achieving zero fossil fuel consumption and referred to as the "dissecting sparrow" initiative, has successfully met the acceptance criteria, demonstrating a fuel substitution rate of 63.43%. The production was successfully shortlisted as 2024 Global Low-Carbon Development Cases by the GCCA. Furthermore, Honghe plant has been designated as a 2024 National "Green Plant", with Lincang, Yichang, and Daye plants receiving provincial-level "Green Plant".

- Concentrating on cost management to enhance competitiveness. Indicator benchmarking has been widely applied to improve organization and efficiency to achieve 100% unified procurement. The procurement of raw material per ton cement achieved six consecutive reductions. New energy vehicle projects have been launched in and out of China to tap the potential of reducing logistic cost and initial results were gained.

- Rein in credit risks. By adhering to a cash-centric business model, the Company scaled down the credit, enhanced customer sentiment monitoring and risk early warning mechanisms, and aggressively cleared long-term receivables to mitigate the risk of bad debts, thereby successfully achieved its annual accounts receivable control target and no instances of acceptance overdue occurred.

Unit: RMB

Items	**Closing balance**	Opening balance
Within 1 year	**3,388,952,220**	3,006,336,175

(2) Business Plan for 2025

In 2025, the company's total revenue is expected to reach 37.1 billion yuan. It plans to sell 57 million tons of cement and clinker, 170 million tons aggregate, and 30 million cubic meters of RMX.

In 2025, the Company plans to invest RMB13.3 billion, mainly for the construction in the production capacity of aggregate, overseas cement and alternative fuels.

In 2025, total assets of the Company are expected to be about RMB78.9 billion and the asset-liability ratio is expected to be around 54%.

To achieve the above business objectives, the Company will take the following measures:

(1) Further cultivate an operational mindset. Within the domestic market, stick to the principle of "profitability is the ultimate objective, underpinned by pricing (revenue) to maintain market share, reduce cost and improve efficiency, with the aim of stabilizing the market, ensuring smooth operations, and augmenting performance. In the international market, production organization should be optimized, production efficiency and output enhanced, market distribution refined, talent development fortified, and all resources mobilized to amplify performance.

(2) Committed to the four new strategies to ensure sustainable growth. Efforts will be intensified to advance the overseas projects, ensuring timely settlement of acquisition. The industrial operations of both acquired and newly established facilities will be optimized for enhanced efficiency. Standardization of aggregate equipment management and its application in critical engineering projects will be pursued to achieve precision in cost management. Risk management within the RMX business will be refined, fostering a healthy competitive landscape. Leveraging our strengths in independent R&D, we will strive for the integration of global data assets and the gradual establishment of a worldwide digital management and control infrastructure.

(3) Uphold the "safety and environmental protection" lifeline and set benchmarks for clean and standardized production in the industry. Continuously carry out activities to ensure the "final mile" of safety production, promote refined management of safety production, conduct annual health and safety audits, step up efforts in health compliance management and check, quarry safety management, and guard against major risks, consolidating the line of defense for safety and stable development.

(4) Committed to a comprehensive enhancement of risk control, compliance protocols, and integrity boundaries, thereby fortifying the perimeter for development. The strict adherence to a contracted credit control policy, coupled with flexible adjustments in investment tactics and foreign exchange exposure management, prioritizes the vigilant oversight of high-risk instruments, thereby precluding liquidity risks. Intensified daily surveillance over internal control is pivotal for the early detection and mitigation of operational perils. The establishment and refinement of a multinational legal affairs structure are paramount for the successful realization of our strategic corporate objectives. Furthermore, the Company is dedicated to the advancement of the "Clean Huaxin" initiative, ensuring a synchronous approach to the investigation and resolution of corruption and malfeasance, thereby guaranteeing the integrity and regulatory compliance of all businesses.

(5) Innovation as the means to establish a global marketing system. Domestically, cultivating a market environment of legalities, compliance with regulations, and self-discipline, is instrumental in steering product prices towards more rational benchmarks. Digital pricing management systems are applied widely to make simple, transparent and efficient business of cement, aggregate and RMX; Furthermore, the establishment of a "global business management unified module standard" to benchmark and standardize sales business management practices across all geographical boundaries, thereby ensuring effective risk mitigation.

(6) Enhancing the efficiency of production operations to cut costs and energy consumption comprehensively.

(VI) MATERIAL LITIGATIONS AND ARBITRATIONS

During the Reporting Period, the Company was not involved in any litigation or arbitration that had been disclosed in the extraordinary announcements but had no further progress.

The table below sets out the litigations and arbitrations that were not disclosed in extraordinary announcements or that had further progress:

Plaintiff/Applicant	Defendant/Respondent	Joint and sever liability	Type	Basic information	Amount	Estimated amount of contingent liability	Progress	Consequence and impact	Enforcement
Moncement Building Materials LLC	Huaxin Cement Co., Ltd.		Arbitration	For detailed information, please refer to the Annual Report 2020 of the Company at www.sse.com.cn	USD 77.0696 million yuan	Yes RMB40 million yuan	The Secretariat of the International Chamber of Commerce's Arbitration Court has acknowledged the applicant's final claim summing up to USD 73,214,000. In response, the respondent has filed a counterclaim totaling USD 3,855,600 Consequently, the overall disputed amount stands at USD 77,069, 600. The arbitration hearings were conducted on the dates of March 22nd to 23rd and 25th to 28th, 2024, pending for the final verdict.		

(VII) PUNISHMENT ON DIRECTORS, SUPERVISORS, SENIOR MANAGEMENT, CONTROLLING SHAREHOLDER, AND DE FACTO CONTROLLERS OF THE COMPANY AND THE RECTIFICATION

During the Reporting Period, the Company and its Directors, Supervisors, senior management, controlling shareholders and de facto controllers were not penalised and/or rectified.

Enquiries may be put to the Board by contacting either the Company Secretary through (0086) 27 87773898 or email at investor@huaxincem.com or directly by questions at an annual general meeting or an extraordinary general meeting. Questions on the procedure for convening or putting forward proposals at an annual general meeting or an extraordinary general meeting may also be put to the Company Secretary through the same means.

(VI) BOARD OF DIRECTORS

The Board of Directors serves as the permanent body of the Company for making operational decisions and is responsible to the shareholders' general meeting. As at the date of this annual report, the Board of Directors is composed of nine directors including three independent non-executive directors. The Board of Directors strictly abides by the Articles of Association of the Company, the Procedural Rules of the Board of Directors and relevant laws and regulations in performing its duties.

All directors are entitled to acquire the Company's documents (including but not limited to management account, operation result and statistics, audit result and related information and prediction of other industries and market), to seek help and professional opinions from corporate secretary (if any), the fee of which shall be borne by the Company. The Company also took multiple measures and methods to provide the information to independent and non-executive directors for them to learn about the business and operation situation, organized them to pay field visit and exchange with the management to ensure adequate fulfillment of responsibility of the board and safeguard shareholders' interests.

The Directors confirm their individual and collective responsibility for preparing the financial statements of the Company for the year ended 31 December 2024. The Board has set up special committees including the Audit Committee, the Nomination Committee, the Remuneration and Assessment Committee, the Strategy Committee and the Governance and Compliance committee etc. Those special committees have formulated their respective terms of references, are responsible to the Board of Directors, and make proposals and advisory opinions to the Board of Directors for deliberation under the unified leadership of the Board. Those special committees may engage an intermediary agency to provide independent professional advice, and the relevant expenses shall be borne by the Company. During the Reporting Period, aimed at making more scientific decisions and operating in a more standard and more effective manner, the Board of Directors actively expanded channels for information exchange, strengthened communication with the management, and timely responded to major issues.

During the Reporting Period, all Directors worked diligently and in strict accordance with the Articles of Association

Directors' training

All Directors (Mr. Li Yeqing, Mr. Liu Fengshan, Mr. Xu Yongmo, Mr. Martin Kriegner(appointed on 9 January 2023), Mr. Lo Chi Kong, Ms. Tan Then Hwee, Mr. Wong Kun Kau, Mr. Zhang Jiping and Mr. Jiang Hong) have participated in the Continuing Professional Development Programme during the Reporting Period for knowledge and skill update, so that they can continue to make informed and relevant contributions to the Board of Directors and that they are fully aware of their responsibilities, duties and obligations as directors of a dual-listed company.

(VII) FULFILLMENT OF CORPORATE GOVERNANCE DUTIES BY THE BOARD OF DIRECTORS

In accordance with the regulatory requirements governing securities in the place of listing of the Company's shares, the Board of Directors strictly implemented the provisions of the Procedural Rules of the Board of Directors in performing its corporate governance duties, including but not limited to:

- Formulating and reviewing corporate governance policies and practices of the Company and giving suggestions.
- Reviewing and monitoring the training and continuing professional development of directors and senior management. During the Reporting Period, the Board of Directors communicated relevant regulatory laws and regulations to the directors and senior management in a timely manner to help them continuously develop their professional competence and better perform their duties.
- Reviewing and monitoring the Company's abidance by laws and regulations in terms of policies and practices. The Board of Directors continuously monitored the Company's operational compliance. The Company set up a Legal Department and engaged law firms to reduce legal and regulatory risks.

CORPORATE GOVERNANCE & CORPORATE GOVERNANCE REPORT

— Reviewing the Company's compliance with *Corporate Governance Code* contained in Appendix C1 to the HKEX Listing Rules and its disclosures in the *Corporate Governance Report*. The Board of Directors required the Company to strictly comply with the requirements on corporate governance set forth in the listing rules of the place where the shares of the Company are listed and disclose relevant corporate governance information in a timely manner. The Board considered thaules lslAolici (and)0.6 (its er. echanism(requirew shand)0.eff)0.ivhand r

(IX) INDEPENDENT NON-EXECUTIVE DIRECTORS

According to the Procedural Rules of the Board of Directors, directors shall serve a term of three years and may serve a consecutive term if re-elected, but the term of independent non-executive directors shall not be more than six years. As of the date of this report, the Board of Directors of the Company comprised of nine directors, including three independent non-executive directors. Mr. Jiang Hong, an independent non-executive director, is qualified for accounting and financial management. The composition of the Board of Directors complies with Rule 3.10(1) "The board of directors must include at least three independent non-executive directors", Rule 3.10A "Independent non-executive director must represent at least one-third of the board" and Rule 3.10(2) "At least one of the independent non-executive directors must have appropriate professional qualifications or accounting or related financial management expertise" of the HKEX Listing Rules.

The Company has received annual confirmation letters from independent non-executive Directors, Mr. Zhang Jiping, Mr. Jiang Hong and Mr. Wong Kun Kau, regarding their independence in accordance with Rule 3.13 of the HKEX Listing Rules. The Company acknowledges their independence and considers all independent non-executive Directors as independent third parties.

(X) SPECIAL COMMITTEES TO THE BOARD OF DIRECTORS

The Board of Directors has set up five special committees including the Audit Committee, the Nomination Committee, the Remuneration and Assessment Committee, the Strategy Committee and the Governance and Compliance Committee. Those committees performed their duties and authorities assigned by the Board of Directors with due diligence and in accordance with laws, regulations, the Articles of Association of the Company and their respective terms of references, and have played a positive role in improving the corporate governance structure and the development of the Company. During the Reporting Period, the Board of Directors did not raise any objection to the board proposals and non-board proposals for the year.

1. The Company has set up the Strategy Committee in accordance with the *Code of Corporate Governance for Listed Companies*. The Strategy Committee is mainly responsible for conducting feasibility study on the Company's long-term strategic plan and major strategic investment, reporting to and accountable to the Board of Directors. The terms of reference of the Strategy Committee have been published on the websites of the Company and SSE.

During the Reporting Period, in accordance with the *Company Law*, the *Securities Law*, the *Accounting Law of the People's Republic of China*, the *Basic Internal Control Norms for Enterprises* and its supporting guidelines, the *Guidelines of SSE for the Internal Control of Listed Companies* and other regulatory rules on internal control, the Audit Committee identified, assessed and sorted out the important risks faced by the Company and improved the Company's risk management control measures, to ensure that the control measures targeted towards major risks are well-founded, relevant resources are in place and properly applied, and the risks are well under control. The Audit Committee believes that the Company's risk management and internal control system is effective and adequate and complies with the requirements of the governance code for listed companies issued by the CSRC.

During the Reporting Period, the Audit Committee held two meetings with the audit institutions engaged by the Company.

3. The Company has set up a Nomination Committee in accordance with Rule B.3.1 of the *Corporate Governance Code* and the requirements of CSRC and SSE. The Nomination Committee is mainly responsible for raising proposals on the replacement of directors and senior management, selecting and recommending new candidates to the Board of Directors, and evaluating the independence of independent non-executive directors. The terms of reference of the Nomination Committee have been published on the websites of the Company, SSE and SEHK.

The Company has formulated the *Board Diversity Policy*, which involves: (1) Policy statement: When deciding the composition of the Board of Directors, the Company will take into account the board diversity from various aspects, including but not limited to gender, age, cultural and educational background, race, professional experience, skills, expertise and term of service. All appointments to the Board of Directors will be made based on competeEMC /Span Lang he

During the Reporting Period, the Audit Committee held seven meetings in total. All members attended these meetings in person and discussed matters as follows:

Time	Agenda	Opinions and suggestions
2024.3.25	Review: 1. Financial report 2023 of the Company, announcement on the annual performance 2. Proposal on Reappointment of the Accounting Firm for 2024 Financial Audit and Internal Control Audit of the Company 3. Annual Internal Control Assessment Report 2023 4. Duty Performance Report 2023 of the Audit Committee. 5. Report on the Supervision by the Audit Committee on the Duty Performance of the Accounting Firm in 2023 Hear: 1. Report by the Accounting Firm on the Completion of Audit of 2023 and Key Concerns 2. 2023 IA & IC Work Report	

During the Reporting Period, the Nomination Committee held two meetings. All members attended the meetings in person and discussed matters as follows:

Time	Agenda	Opinions and suggestions
2024.3.25	Review: 1. Proposal on the Nomination of Director Candidates of the Eleventh Board of Directors; 2. Proposal on the Nomination of Independent Director Candidates. for the Eleventh Board of Directors. Review of the senior management.	Agreed to submit the review items to the Board for review

The Board of Supervisors had no objection to the supervision matters during the Reporting Period.

(XI) JOINT COMPANY SECRETARIES

Mr. Ye Jiaxing serves as the Joint Company Secretary of the Company and is responsible for advising the Board of Directors on corporate governance matters. In addition, to ensure good corporate governance and compliance with the HKEX Listing Rules, the Company has appointed Ms. Lee Mei Yi, an Executive Director of Corporate Services Division of Tricor Services Limited and a Fellow of both The Hong Kong Chartered Governance Institute and The Chartered Governance Institute in the United Kingdom, as the Joint Company Secretary to assist Mr. Ye Jiaxing in fulfilling his obligations and responsibilities. The main contact within the Company for Ms. Lee Mei Yi is Mr. Ye Jiaxing (Vice President and Secretary to the Board of Directors of the Company).

In 2024, both Mr. Ye Jiaxing and Ms. Lee Mei Yi complied with the training requirements set out in Rule 3.29 of the HKEX Listing Rules.

6. Communication with the shareholders

The Company has adopted the Shareholders' Communication Policy with the objective of ensuring that the shareholders will have equal and timely access to information about the Company in order to enable the shareholders to exercise their rights in an informed manner and allow them to engage actively with the Company.

The shareholders are informed mainly through the Company's financial reports, annual general meeting and other extraordinary general meeting that may be held, as well as published disclosures submitted to the SEHK.

Communication channels between the Company and its shareholders include shareholder enquiries, corporate newsletters, corporate website, general meetings, investment market communications (including investor/analyst briefings, local and global roadshows, media interviews, investor promotions and topical forums, etc., which are regularly organized by the Company).

The Board reviewed the implementation and effectiveness of the Shareholders' Communication Policy during the Reporting Period. The Board considered that the Shareholders' Communication Policy remained effective and was properly implemented given the multiple channels of communication in place during the Reporting Period.

7. Documents of the articles of association

On 19 March 2025, the First Extraordinary General Meeting of the Company in 2025 reviewed and approved the proposal "Proposed Amendments to the Articles of Association" and made amendments to the Company's Articles of Association and its annexes.

(III) ADJUSTMENT OF CORPORATE BOND CREDIT RATING

Bonds	Agency	Time of adjustment	Credit rating	Outlook change	Reason of change
2020 overseas bonds	MOODY'S INVESTORS SERVICE	January, 2025	Baa2	Steady	

AUDITOR’S REPORT

IV. OTHER INFORMATION

The management of the Company is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report.

Our audit opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

With respect to the work we have performed, if we are certain that the other information is materially misstated, we should report the facts. In this regard, we have nothing to report.

V. RESPONSIBILITIES OF THE MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

The management of the Company is responsible for the preparation of the financial statements that give a true and fair view in accordance with ASBEs, and for designing, implementing and maintaining such internal control as the management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless the management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing Huaxin Cement Co., LTD's financial reporting process.

VI. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with CSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are generally considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

VI. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS *(continued)*

As part of an audit conducted in accordance with CSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also perform the following tasks:

(1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

(3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

(4) Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

(5) Evaluate the overall presentation (including the disclosures), structure and content of the financial statements, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

(6) Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

I. BASIC INFORMATION

Huaxin Cement Co.,LTD (hereinafter referred to as the "Company" or "Huaxin Cement") is a joint stock company with limited liability incorporated in Hubei, the People's Republic of China and was established on 30 November 1993. The Renminbi-denominated ordinary shares (A shares) and H shares of the Company are listed on the Shanghai Stock Exchange ("Shanghai Stock Exchange") and The Stock Exchange of Hong Kong Limited ("Hong Kong Stock Exchange"), respectively. The Company's headquarters is located at No. 426 Gaoxin Avenue, Donghu New Technology Development District, Wuhan, Hubei.

The principal business activities of the Company and its subsidiaries (collectively, the "Group") include manufacture and sale of cement, concrete, clinker, aggregate and other building materials.

These financial statements were approved for disclosure by a resolution of the board of directors of the Company on 26 March 2025.

The consolidation scope of consolidated financial statements was determined on the basis of control. Please refer to Note. VII for changes of the year.

II. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

1. Basis of Preparation

The financial statements are prepared in accordance with Accounting Standards for Business Enterprises — Basic Standards issued by the Ministry of Finance as well as specific accounting standards, interpretations and other relevant provisions issued and revised subsequently (collectively referred to as "Accounting Standards for Business Enterprises"). In addition, the financial statements also include the relevant disclosures required by the Hong Kong Companies Ordinance and Listing Rules of the Hong Kong Stock Exchange.

2. Going Concern

The financial statements are presented on a going concern basis.

As at 31 December 2024, the Group's current assets were RMB15,791,607,023 and current liabilities were RMB18,168,904,092. The amount of current assets was less than the amount of current liabilities. When evaluating whether the Group h3 Tw 9 0 0 9 lscabu 0 0 9f(u)0.6 (a)0.5c(u)0.6 (a)0.5 (t)0.6niuatatisa (e)0.5 (

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

7. Cash and cash equivalents

Cash comprises the Group's cash on hand and deposits that can be readily withdrawn on demand. Cash equivalents are short-term, highly liquid investments that are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value.

8. Foreign currency transactions and foreign currency translation

The Group translates foreign currency transactions into its functional currency.

Foreign currency transactions are recorded, on initial recognition in the functional currency using the spot exchange rates prevailing at the dates of transactions. At the balance sheet date, monetary items denominated in foreign currencies are translated at the spot exchange rates at the balance sheet date. Differences arising on settlement or translation of monetary items are recognised in profit or loss, with the exception of those relating to foreign currency borrowings specifically for the construction and acquisition of qualifying assets, which are capitalised in accordance with the guidance for capitalisation of borrowing costs. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates on initial recognition, and the amount denominated in the functional currency is not changed. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The resulting exchange differences are recognised in profit or loss or other comprehensive income depending on the nature of the non-monetary items.

For foreign operations, the Group translates their functional currency amounts into RMB when preparing the financial statements as follows: the assets and liabilities are translated using the spot exchange rates at the balance sheet date, and equity items other than "unappropriated profit" are translated at the spot exchange rates at the dates of transactions; revenue and expense items in profit or loss are translated using the weighted average exchange rates for the period during which the transactions occur (unless this is inappropriate due to exchange rate fluctuations, in which case the spot exchange rates prevailing on the dates of the transactions are used). The resulting exchange differences are recognised in other comprehensive income.

Foreign currency cash flows and the cash flows of foreign subsidiaries are translated using the weighted average exchange rates for the period during which the cash flows occur (unless this is inappropriate due to exchange rate fluctuations, in which case the spot exchange rates prevailing on the dates of cash flows are used). The effect of exchange rate changes on cash is separately presented as an adjustment item in the statement of cash flows.

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

9. Financial instruments *(continued)*

(4) Impairment of financial instruments (continued)

Recognition and accounting treatments of expected credit losses (continued)

Except for financial assets which apply the simplified approach as mentioned above, the Group assesses whether the credit risk has increased significantly since initial recognition at each balance sheet date. If the credit risk has not increased significantly since initial recognition (stage 1), the loss allowance is measured at an amount equal to 12-month ECLs by the Group and the interest income is calculated according to the carrying amount and the effective interest rate; if the credit risk has increased significantly since initial recognition but are not credit-impaired (stage 2), the loss allowance is measured at an amount equal to lifetime ECLs by the Group and the interest income is calculated according to the carrying amount and the eng (en-GB)/MCID 7743 B and th(4) ial assets w assessment da

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

9. Financial instruments *(continued)*

(4) Impairment of financial instruments (continued)

Criteria for individual impairment provisions

If a counterparty exhibits significantly different credit risk characteristics compared to others in the portfolio, the Group assesses and recognises a loss provision individually for the related receivables. The Group categorises accounts receivable into the cement portfolio, concrete portfolio, and other portfolios based on credit risk characteristics, applying a portfolio-based ECL calculation. If there is objective evidence that a specific trade receivable has been impaired, expected credit losses will be recognised by the Group and a provision for individual impairment will be made. For accounts receivable classified within a portfolio, the Group determines ECL by considering historical credit loss experience, current situation and forecasts of economic conditions. The calculation incorporates exposure at default and the lifetime ECL rate to estimate the expected credit loss.

Write-off of impairment provisions

The Group directly reduces the gross carrying amount of a financial asset when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

(5) Derivative financial instruments

The Group uses derivative financial instruments. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently measured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Any profit or loss arising from changes in fair value of derivatives are taken directly in profit or loss.

(6) Transfers of financial assets

A financial asset is derecognised when the Group has transferred substantially all the risks and rewards of the asset to the transferee. A financial asset is not derecognised when the Group retains substantially all the risks and rewards of the financial asset.

When the Group has neither transferred nor retained substantially all the risks and rewards of the financial asset, it either (a) derecognises the financial asset and recognises the assets and liabilities created in the transfer when it has not retained control of the asset; or (b) continues to recognise the transferred asset to the extent of the Group's continuing involvement, in which case, the Group also recognises an associated liability.

Continuing involvement that takes the form of a guarantee over the transferred financial asset is measured at the lower of the original carrying amount of the financial asset and the guarantee amount. The guarantee amount is the maximum amount of consideration that the Group could be required to repay.

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

10. Inventories

Inventories include raw materials, work in progress, finished goods, spare parts and turnover materials, etc.

Inventories are initially carried at cost. Cost of inventories comprises all costs of purchase, costs of conversion and other costs. Cost is determined on the weighted average basis. Turnover materials include low value consumables and packing materials, which are accounted for on the immediate write-off basis.

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

11. Long-term equity investments *(continued)*

Under the cost method, the long-term equity investment is measured at its initial investment cost. When additional investment is made or the investment is recouped, the cost of long-term equity investment is adjusted accordingly. Cash dividends or profit distributions declared by the investee are recognised as investment income in profit or loss.

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

16. Impairment of assets *(continued)*

The carrying amount of an asset group or a set of asset groups, including goodwill, shall be compared to its recoverable amount. If the recoverable amount of the asset group or set of asset groups is lower than the carrying amount, the amount of the impairment loss is first reduced by the carrying amount of the goodwill allocated to the asset group or set of asset groups, and then by the carrying amount of other assets (other than the goodwill) within the asset group or set of asset groups, on a pro rata basis based on the carrying amount of each asset.

Once the above asset impairment loss is recognised, it cannot be reversed in subsequent accounting periods.

17. Long-term prepaid expenses

Long-term prepaid expenses represent expenditures incurred but should be recognised as expenses over more than one year in the current year and subsequent periods, including mine development expenses and residents' relocation expenses. Long-term prepaid expenses are amortised using the straight-line method and the production method according to the period over which they are estimated to generate economic benefits for the Group.

18. Employee benefits

Employee benefits refer to all forms of consideration or compensation given by the Group other than share-based payments in exchange for services rendered by employees or for termination of employment. Employee benefits include short-term employee benefits, post-employment benefits, termination benefits and other long-term employee benefits.

(1) Short-term benefits

Short-term employee benefits incurred are recognised as a liability in the accounting period in which an employee provides services, with a corresponding charge to profit or loss or the cost of an asset.

(2) Post-employment benefits (defined contribution plan)

For the employees of the Group participating in a pension scheme, unemployment insurance managed by the local government, and an enterprise pension fund, the corresponding expenses are included in the cost of related assets or profit or loss.

(3) Post-employment benefits (defined benefit plan)

The Group operates various defined benefit pension plans, which include providing certain eligible retirees of the Company and its subsidiaries with supplementary allowance benefits. These plans are impacted by interest rate risk and changes in the life expectancy of eligible retirees.

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

18. Employee benefits *(continued)*

(3) Post-employment benefits (defined benefit plan) (continued)

The items to be remeasured as a result of the defined benefit pension plan, which include actuarial gains or losses, movements arising from the asset cap (net of amounts included in net interest of liabilities in the defined benefit plan) and return on plan assets (net of amounts included in net interest of liabilities in the defined benefit plan), are all immediately recognised in the balance sheet, and are included in shareholders' equity through other comprehensive income during the period in which they are incurred. They will not be reversed to profit or loss in subsequent periods.

The past service costs are recognised as expenses for the current period when the defined benefit

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

20. Share-based payments *(continued)*

An equity-settled share-based payment in exchange for services received from employees is measured at the fair value of the equity instruments granted to the employees. If such equity-settled share-based payments vest immediately, the related costs or expenses at an amount equal to the fair value on the grant date are recognised, with a corresponding increase in capital reserves; if such equity-settled share-based payments do not vest until the completion of services for a vesting period, or until the achievement of a specified performance condition, the Group, at each balance sheet date during the vesting period, recognises the services received for the current period as related costs and expenses, with a corresponding increase in capital reserves, at an amount equal to the fair value of the equity instruments at the grant date, based on the best estimate of the number nber ( )]TJE4GS0 hare-based

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

22. Revenue from contracts with customers *(continued)*

(1) Contracts for the sale of cement and other construction materials (continued)

The Group uses the amount of consideration that it expects to be entitled to receive as a result of the transfer of merchandise to customers as the transaction price, which is determined in accordance with the terms of the contract, taking into account past business practices. Some of the Group's contracts include provisions for certain discounts when customers purchase merchandise over a certain quantity, which are directly offset against the amount payable by the customer for the merchandise purchased in the current period. The Group makes its best estimate of the discount in accordance with the expectation that the transaction price after the estimated discount will not exceed the amount by which it is highly probable that the cumulative recognised revenue will not be materially reversed by the time the related uncertainty is eliminated, and re-estimates the discount at each balance sheet date.

For the existence of significant financing components in the contract, the Group determines the transaction price based on the amount payable immediately by cash upon the receipt of control of goods or services by the customer, and uses the discount rate which discounts the nominal amount of the contract consideration to the discounted price of the goods or services to amortise the difference between the determined transaction price and the consideration amount of the contract commitment using the effective interest method during the contract period. Where it is expected that the intervals between the customer's control over the goods and services and the payment by the customer will not exceed one year, the Group does not consider the significant financing components in the contract.

(2) Contracts for the rendering of services

The Group fulfils its performance obligations through the provision of services such as solid waste treatment and governmental household waste treatment to its customers. Since the economic benefits arising from the Group's performance are obtained and consumed by the customers at the same time as the Group's performance, the Group recognises revenue in accordance with the progress of performance as performance obligations fulfilled in a certain period of time, unless the progress of performance is not reasonably determinable. The Group determines the progress of performance in the provision of services in accordance with the output method. When the progress of performance is not reasonably determinable, the Group recognises revenue at the amount of costs incurred until the progress of performance is reasonably determinable, provided that the costs incurred by the Group are expected to be reimbursed.

23. Contract assets and contract liabilities

The Group presents contract assets or contract liabilities depending on the relationship between the satisfaction of its performance obligations and the customer's payment in the balance sheet.

(1) Contract assets

The Group presents its right to consideration in exchange for goods or services as a contract asset (the right to consideration is conditional on other factors excluding the passage of time) if the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due. The Group presents it as an account receivable when the Group has the right to consideration, which is unconditional subsequently.

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

23. Contract assets and contract liabilities *(continued)*

(1) Contract assets (continued)

For details of how the Group measures and accounts for the ECLs of a contract asset, refer to Note III. 9.

(2) Contract liabilities

The Group presents its obligation to transfer goods or services to a customer, for which the Group has received consideration or the Group has a right to an amount of consideration that is unconditional (i.e., a receivable) from the customer, as a contract liability.

24. Contract cost assets

The Group's contract cost assets include the costs to obtain and fulfil a contract and are classified by liquidity as inventories, other current assets and other non-current assets.

The Group recognises as an asset the incremental costs of obtaining a contract with a customer if the Group expects to recover those costs, unless the amortisation period of the asset is one year or less.

Other than the costs which are capitalised as items such as inventories, fixed assets and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

(1) the costs relate directly to a contract or to an anticipated contract, including direct labour, direct materials, overheads (or similar expenses), costs that are explicitly chargeable to the customer and other costs that are incurred only because an entity entered into the contract;

(2) the costs generate or enhance resources of the Group that will be used in satisfying performance obligations in the future; and

(3) the costs are expected to be recovered.

The contract cost asset is amortised and charged to profit or loss on a systematic basis that is consistent with the pattern of the revenue to which the asset related is recognised.

The Group accrues provisions for impairment and recognises impairment losses to the extent that the carrying amount of a contract cost asset exceeds:

(1) the remaining amount of consideration that the entity expects to receive in exchange for the goods or services to which the asset relates; less

(2) the costs that are expected to be incurred to transfer those related goods or services.

25. Government grants

Government grants are recognised when all attaching conditions can be complied with and the grant will be received. If a government grant is in the form of a transfer of a monetary asset, it is measured at the amount received or receivable. If a government grant is in the form of a transfer of a non-monetary asset, it is measured at fair value; if fair value cannot be reliably determined, it is measured at a nominal amount.

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

27. Leases *(continued)*

(2) As a lessor

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset, except that a lease is classified as an operating lease at the inception date.

Rental income under an operating lease is recognised on a straight-line basis over the lease term through profit or loss. Variable lease payments that are not included in the measurement of the lease receivables are charged to profit or loss as incurred. Initial direct costs are capitalised and recognised over the lease term on the same basis as rental income, through profit or loss.

28. Share repurchases

Consideration and transaction costs paid for the repurchase of own equity instruments reduce shareholders' equity. Except for share-based payments, the issuance (including refinancing), repurchase, sale or cancellation of own equity instruments is treated as a change in equity.

29. Production safety cost

Safety production funds according to the regulations are included in the costs of related products or profit or loss, and credited to the specialised reserves. They are accounted for differently when being utilised: (a) the specialised reserves are offset for those attributable to the expense nature; or (b) the cumulative expenditures are recognised as a fixed asset for those attributable to the fixed asset nature when the asset is brought to the working condition for the intended use, and at the same time, specialised reserves are offset by the full depreciation of the fixed asset, at the same amount.

30. Fair value measurement

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole: Level 1 inputs — quoted prices (unadjusted) in active markets for identical assets or liabilities at the measurement date; Level 2 inputs — the observable inputs, either directly or indirectly, of the relevant assets or liabilities other than Level 1 inputs; Level 3 inputs — unobservable inputs of the relevant assets or liabilities.

For assets and liabilities that are measured at fair value in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessment.

31. Significant accounting judgements and estimates

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities at the balance sheet date. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

31. Significant accounting judgements and estimates *(continued)*

(1) Judgements

In the process of applying the Group's accounting policies, management has made the following judgements which have a significant effect on the amounts recognised in the financial statements:

Business models

The classification of financial assets at initial recognition depends on the Group's business model for managing financial assets. When determining the business model, the Group considers the factors such as the methods used to evaluate management, the risks affecting the performance of financial assets and risk management, and the manner in which the relevant management receives remuneration. When assessing whether

reason, timing, frequency and value of the sale before the maturity date of the financial assets.

Characteristics of contractual cash flows

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics, and the judgements on whether the contractual cash flows are solely payments of principal and interest on

assessing the modification of the time value of money and the judgement on whether the fair value of the prepayment features is insignificant for financial assets with prepayment features.

Lease term

The Group determines the lease term as the non-cancellable period of a lease, excluding the periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option. In assessing whether it is reasonably certain to exercise an option to extend the lease,

III. MATERIAL ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES *(continued)*

31. Significant accounting judgements and estimates *(continued)*

(2) Estimation uncertainty (continued)

Impairment of financial instruments

The Group uses the expected credit loss model to assess the impairment of financial instruments. The Group is required to perform significant judgement and estimation and take into account all reasonable and supportable information, including forward-looking information. When making such judgements and estimates, the Group infers the expected changes in the debtor's credit risk based on historical repayment data combined with economic policies, macroeconomic indicators, industry risks and other factors. The different estimates may impact the impairment assessment, and the provision for impairment may not be representative of the actual impairment loss in the future.

Impairment of non-current assets other than financial assets (other than goodwill)

The Group assesses whether there are any indications of impairment for all non-current assets other than financial assets at the balance sheet date. Intangible assets with indefinite useful lives are tested for impairment annually and at other times when such an indication exists. Other non-current assets other than financial assets are tested for impairment when there are indications that the carrying amounts may not be recoverable. An impairment exists when the carrying amount of an asset or asset group exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and the present value of the future cash flows expected to be derived from it. The calculation of the fair value less costs of disposal based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the assets. When the calculations of the present value of the future cash flows expected to be derived from an asset or asset group are undertaken, management must estimate the expected future cash flows from the asset or asset group and choose a suitable discount rate in order to calculate the present value of those cash flows. Further details are included in Notes V.13, V.14,V.15, V.16 and V.18.

Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the present value of the future cash flows expected to be derived from the asset groups or set of asset groups to which the goodwill is allocated. Estimating the present value requires the Group to make an estimate of the expected future cash flows from the asset groups or set of asset groups and also to choose a suitable discount rate in order to calculate the present value of those cash flows. Further details are included in Note V.17.

Fair value of non-listed equity investments

The Group determines the fair value of non-listed equity investments using the market approach. This requires the Group to ascertain comparable listed companies, select market multiples and make estimates on liquidity discounts, thereby giving rise to uncertainties.

IV. TAXATION *(continued)*

2. Tax concessions

2.1 Corporate income tax

The Group's subsidiary, Huaxin Cement Technology Management (Wuhan) Co.,LTD, was granted the Certificate of High and New Technological Enterprise by Hubei Provincial Science & Technology Department in 2023. Pursuant to the Enterprise Income Tax Law of the PRC, the subsidiary is entitled to a reduced tax rate of 15% for the year (2023: 15%).

The Group's subsidiary, Huaxin Environmental Engineering Co.,LTD, was granted the Certificate of High and New Technological Enterprise by Hubei Provincial Science & Technology Department in 2022. Pursuant to the Enterprise Income Tax Law of the PRC, the subsidiary is entitled to a reduced tax rate of 15% for the year (2023: 15%).

The Group's subsidiary, Huaxin Cement (Henan Xinyang) Co.,LTD, was granted the Certificate of High and New Technological Enterprise by Henan Provincial Science & Technology Department in 2022. Pursuant to the Enterprise Income Tax Law of the PRC, the subsidiary is entitled to a reduced tax rate of 15% for the year (2023: 15%).

The Group's subsidiary, Huaxin Super-kolon New Building Materials Technology (Huangshi) Co.,LTD, was granted the Certificate of High and New Technological Enterprise by Hubei Provincial Science & Technology Department in 2022. Pursuant to the Enterprise Income Tax Law of the PRC, the subsidiary is entitled to a reduced tax rate of 15% for the year (2023: 15%).

The Group's subsidiaries, Huaxin Cement Chongqing Fuling Co.,LTD, Huaxin Cement (Enshi) Co.,LTD, Huaxin Cement (Quxian) Co.,LTD, Huaxin Cement (Wanyuan) Co.,LTD, Huaxin Cement (Lijiang) Co.,LTD, Yunnan Huaxin Dongjun Cement Co.,LTD, Huaxin Guizhou Dingxiao Special Cement Co.,LTD, Huaxin Cement (Zhaotong) Co.,LTD, Huaxin Hongta Cement (Jinghong) Co.,LTD, Huaxin Cement (Jianchuan) Co.,LTD, Huaxin Cement (Kunming Dongchuan) Co.,LTD, Huaxin Cement (Lincang) Co.,LTD, Huaxin Cement (Honghe) Co.,LTD, Chongqing Huaxin Diwei Cement Co.,LTD, Chongqing Huaxin Cantian Cement Co.,LTD and Guizhou Shuicheng Rui An Cement Co.,LTD, Huaxin Cement (Fumin) Co.,LTD, Kunming Chongde Cement Co.,LTD and Huaxin Cement (Tibet) Co.,LTD Huaxin Cement (Diqing) Co.,LTD,Tibet Huaxin Building Materials Co.,LTD, Huaxin Cement (Yunlong) Co.,LTD, Panzhihua Huaxin Cement Co.,LTD, Chongqing Huaxin Yanjing Cement Co.,LTD, Chongqing Huaxin Phoenix Lake Concrete Co.,LTD, Huaxin New Building Materials (Kunming) Co., LTD, and Yunwei Baoshan Organic Chemical Co.,LTD are manufacturing enterprises established in the western development zone of the PRC. Pursuant to Cai Shui [2020] No. 23 Announcement on the Continuation of the Enterprise Income Tax Policy for Western China Development, the applicable enterprise income tax rate for these subsidiaries for the years 2021 to 2030 is reduced to 15%.

The Group's subsidiaries, Hainan Xinhongda Building Materials Co.,LTD, Hainan Baihuitong Supply Chain Technology Co.,LTD, and Hainan Huaxin Ronghui Concrete Co.,LTD, are enterprises established in the Hainan Province. Pursuant to Cai Shui [2020] No. 31 Announcement of Corporate Income Tax Relief Policy in the Hainan Free Trade Port, the applicable enterprise income tax rate for these subsidiaries for the years 2020 to 2024 is reduced to 15%.

V. NOTES TO KEY ITEMS OF CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

13. Fixed assets *(continued)*

(4) Impairment test of fixed assets (continued)

1) Recoverable amount is determined based on the present value of estimated future cash flows.

In the year ended 31 December 2024, due to the market environment and other factors, individual subsidiaries of the Group had underutilised their production capacity and suffered continuous operating losses, and there were obvious indications of impairment for these asset groups. These asset groups include fixed assets with a carrying value of RMB935,011,166 before impairment, intangible assets of RMB46,501,218, construction in progress of RMB76,316,437, and right-of-use assets of RMB1,502,365.

2) Recoverable amount is determined based on the fair value less costs of disposal.

Certain subsidiaries of the Group, in response to national policies, conducted capacity replacement within the Group. Among the production lines involved in capacity replacement, assets that cannot be reallocated within the Group show significant signs of impairment. This asset group includes fixed assets with a pre-impairment book value of RMB44,323,817.

The Group calculates the present value of future cash flows based on the economic life of the main equipment, using a forecast period ranging from 4 to 15 years and a pre-tax discount rate ranging from 10% to 18%. Other key assumptions adopted by the appraiser include the projected sales volume, future selling price, growth rate, expected gross profit margin, and expense ratio of the products related to the asset group. The Group determines these critical assumptions based on the historical operating performance of the asset group, industry standards, and forecasts of market development.

Based on the recoverable amounts determined by the present value of the estimated future cash flows as described above, the Group made impairment provisions of RMB71,839,523, RMB1,388,721, RMB9,072,840 for fixed assets, intangible assets, construction in progress, respectively, in respect of these asset groups during the year.

Total	129,628,172	40,734,994	170,363,166

The cash-generating units containing goodwill above are constituted by each subsidiary and the cash flow generated is basically independent of other asset groups. There have been no changes in the cash-generating units containing goodwill this year.

The recoverable amount was determined based on the higher of the net amount of the fair value of the assets group less costs to sell and the present value of the estimated future cash flows of the asset group.

The estimated future cash flows of the asset group are based on the five-year financial budget approved by the management at a discount rate of 12%–24% before tax (2023: 13%–30%). The estimated cash flows of these asset groups beyond five years are determined at a fixed growth rate of 0% (2023: 0%) per annum. Other key assumptions adopted during the evaluation include estimated production capacity, future selling price, growth rate, expected gross profit margin and

55. Non-operating income

	2024	2023	Recognised in non-recurring profit and loss for 2024

V. NOTES TO KEY ITEMS OF CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

57. Income tax expense *(continued)*

A reconciliation of income tax expense and total profit is set out as follows:

	2024	2023
Profit before tax	**4,111,907,292**	4,326,247,137
Income tax expense at the rate of 25%	**1,027,976,823**	1,081,561,784
Effect of different tax rates applicable to subsidiaries	**(143,822,327)**	

V. NOTES TO KEY ITEMS OF CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

58. Earnings per share *(continued)*

The denominator of diluted earnings per share is equal to the sum of: (1) the weighted average of the parent company's issued ordinary shares in basic earnings per share; and (2) the weighted average number of additional ordinary shares assuming conversion of dilutive potential common shares into common shares.

In calculating the weighted average number of the additional shares of ordinary stock resulting from conversion of dilutive potential ordinary stock into outstanding ordinary stock, dilutive potential ordinary stock issued in prior periods, assuming conversion at the beginning of the current period; Dilutive potential ordinary stock issued in the current period, assuming conversion on the issue date.

Basic and diluted earnings per share are calculated as follows：

	2024	2023
Earnings		
Net profit for the year attributable to ordinary shareholders of the Company	**2,416,280,487**	2,762,116,715
Less：Cash dividends expected to be unlocked in the future for holders of restricted stock	**1,082,421**	427,379
	2,415,198,066	2,761,689,336
Add：Cash dividends expected to be unlocked in the future for holders of restricted stock	**1,082,421**	427,379
Less：Dilutive effect of preferred shares of subsidiaries	**64,761,040**	26,694,823
Adjusted net profit attributable to the Company's ordinary shareholders for the period	**2,351,519,447**	2,735,421,892
Attributed to：		
Continuing operations	**2,351,519,447**	2,735,421,892

	2024	2023

Others	**28,979,769**	46,935,744
Total	**240,903,440**	324,894,605
Including: Expensed research and development expenditure	**238,744,439**	301,098,955
Capitalised research and development expenditure	**2,159,001**	23,795,650

2. Development expenditures of Research and development projects eligible for capitalisation

	Opening balance	Increase during the year: Internal development	Decrease during the year: Transfer to long-term assets	Closing balance
Project 1	36,856,342	—	—	36,856,342
Project 2	32,368,390	—	10,448,991	21,919,399
Project 3	108,463	—	108,463	—
Project 4	—	2,159,001	—	2,159,001
Total	69,333,195	2,159,001	10,557,454	60,934,742

VII. CHANGES IN THE SCOPE OF CONSOLIDATION

1. Business combination not involving entities under common control

On 12 September 2023, a subsidiary of the Group, Huaxin Concrete (Wuhan) Co.,LTD, entered into an "Equity Transfer Agreement" with Hubei Lingma Industrial Co.,LTD. The agreement stipulates the acquisition of 100% equity in Huaxin Ready-mix Concrete (Ezhou Huarong) Co.,LTD for a cash consideration of RMB50,000,000. As of January 2024, the conditions for the agreement to take effect have been met. Huaxin Concrete (Wuhan) Co.,LTD has paid the majority of the amount as per the agreement and completed the relevant equity transfer procedures and amendments to the articles of association. Starting from January 2024, Huaxin Concrete (Wuhan) Co.,LTD has gained substantive control over Huaxin Ready-mix Concrete (Ezhou Huarong) Co.,LTD, holding 100% of its equity and becoming its controlling shareholder. The excess of the merger cost over the fair value of the identifiable net assets acquired has resulted in goodwill amounting to RMB25,017,823.

2. Deregistration of a subsidiary

The Group deregistered 1 subsidiary during the year. Information of the subsidiary is as follows:

	Proportion of shareholding of parent company before deregistration	Reason for not being subsidiary
Yancheng Huaxin Concrete Co.,LTD	100%	Deregistration

3. Establishment of new subsidiaries

	Acquired method
Huaxin Xijiesi Building Material Technology (Huangshi) Co.,LTD	Establishment
Huaxin New Building Materials (Chibi) Co.,LTD	Establishment
Changshu Huaxin Changling Concrete Co.,LTD	Establishment
Jiangsu Huaxin Supply Chain Co.,LTD	Establishment
Xinyang Xinxin Green Building Materials Co.,LTD	Establishment
Zhenjiang Huaxin Mingxing Concrete Co.,LTD	Establishment
Nantong Huaxin Xincheng Concrete Co.,LTD	Establishment
Wuhan Baihuitong Supply Chain Technology Co.,LTD	Establishment
Huaxin Pan Africa Investment Co.,LTD	Establishment
Suzhou Industrial Park Huaxin Concrete Co.,LTD	Establishment
Changyang Xinzhida Logistics Co.,LTD	Establishment
Yellow Stone Engineering Construction SPC	Establishment
Hua Tech Engineering Limited	Establishment
Huaxin Zimbabwe Industries (Private) Limited	Establishment
Giant Stone Engineering Construction Pty LTD.	Establishment

IX. FINANCIAL INSTRUMENTS AND RELATED RISKS *(continued)*

1. Risks of financial instruments *(continued)*

(1) Credit risk

The Group only transacts with accredited, reputable third parties. In accordance with the Group's policy, credit checks are required to be performed on all customers who request to transact on credit. In addition, the Group monitors its accounts receivable balances on an ongoing basis to ensure that the Group is not exposed to significant risk of bad debts. The Group does not provide credit transaction terms for transactions that are not settled in the local currency of account of the relevant operating unit, unless specifically approved by the Group's credit control department.

Cash and bank balances, bank acceptance bills and derivative financial instruments are subject to low credit risk because the counterparties to these instruments are reputable banks with high credit ratings.

The Group's other financial assets include accounts receivable, other receivables, long-term receivables and debt investments, which are subject to credit risk arising from default of the counterparties, with the maximum exposure equal to the carrying amount of these instruments.

The maximum exposure to credit risk of the Group at each balance sheet date is the total amount charged to the customers less the amount of the impairment provision

No collateral is required as the Group only transacts with recognised and reputable third parties. Credit risk concentrations are managed by customer/counterparty, geographical area and industry. There are no significant concentrations of credit risk within the Group as the customer base of the Group's accounts receivable is widely dispersed across different sectors and industries. The Group does not hold any collateral or other credit enhancements over its accounts receivable balances.

Criteria for judging significant increase in credit risk

The Group assesses whether the credit risk of the relevant financial instruments has increased significantly since the initial recognition at each balance sheet date. In determining whether the credit risk has significantly increased since initial recognition, the Group's key criterion is when days past due exceed 30 days, or the following indicators of debtors occur significant changes: the operating environment, internal and external credit ratings and the significant adverse change of actual or predicted operating results.

Definition of credit-impaired assets

The Group's key criterion for determining that credit impairment has occurred is when the number of days past due exceeds 180 days. However, in some cases, the Group also considers credit impairment to have occurred if internal or external information indicates that full recovery of the contractual amount may not be possible before taking into account any credit enhancements held.

The credit impairment of a financial asset may be caused by the combined effect of multiple events and may not be necessarily due to a single event.

IX. FINANCIAL INSTRUMENTS AND RELATED RISKS *(continued)*

1. Risks of financial instruments *(continued)*

(2) Liquidity risk

The Group aims to maintain sufficient cash and credit lines to meet its liquidity requirements. The Group finances its working capital requirements through a combination of funds generated from operations and other borrowings.

The liquidity of the Group is primarily dependent on adequate cash inflows from operations to meet its debt obligations as they fall due and external financing to fulfil its committed future capital expenditure requirements.

The tables below summarise the maturity profile of the Group's financial liabilities based on

IX. FINANCIAL INSTRUMENTS AND RELATED RISKS *(continued)*

1. Risks of financial instruments *(continued)*

(3) Market risk (continued)

Interest rate risk (continued)

As the end of December 2024, the Group's RMB borrowings with floating interest rates amounted to RMB11,841,287,389, the USD long-term borrowings with floating interest rates amounted to RMB642,047,087, and the ZAR long-term borrowings with floating interest rates amounted to RMB207,581,400.

The following table presents a sensitivity analysis of the interest rate risk on RMB long-term borrowings, reflecting the effect that a reasonable and probable change in interest rates would have on net profit or loss (through the impact on floating-rate borrowings) and on other comprehensive income, net of tax, under the assumption that all other variables are held constant.

RMB	(100)	88,098,078	–	88,098,078

Currency risk

The Group has currency exposures arising from sales or purchases by operating units in currencies other than the units' functional currencies.

In addition, the Group has currency exposures from its foreign currency borrowings.

The table below presents the sensitivity analysis of foreign exchange risk. It presents the impact on net profit or loss and net other comprehensive income after tax, under the assumption that all other variables remain constant and the exchange rate changes are reasonable and probable.

2. Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern in order to provide returns for owners and to maintain an optimal capital structure.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to owners, return capital to owners or issue new shares. No changes in the objectives, policies or processes for managing capital were made during the years ended 31 December 2024 and 31 December 2023.

IX. FINANCIAL INSTRUMENTS AND RELATED RISKS *(continued)*

2. Capital management *(continued)*

The Group monitors capital using a debt-to-asset ratio, which is calculated by dividing the total debts of the business by the total assets. The Asset-liability ratio of the Group as at the balance sheet date was as follows:

	31 December 2024	31 December 2023 (restated)
Total liabilities	**34,614,884,740**	35,432,552,822
Total assets	**69,512,689,187**	68,747,865,736
Asset-liability ratio	**50%**	52%

3. Transfer of financial assets

Transfer method	**Nature of transferred financial assets**	**Amount of transferred financial assets**	**Status of derecognition**	**Basis for determining derecognition**
Endorsed/Discounted Bills	Notes receivable	114,931,747	Not derecognised	Retained substantially all the risks and rewards, including default risks associated
Endorsed/Discounted Bills	Receivables financing	2,280,249,072	Derecognised	Transferred substantially all the risks and rewards
Factoring	Accounts receivable	219,400,703	Derecognised	Transferred substantially all the risks and rewards
Total		2,614,581,522		

As 31 December 2024, the financial assets derecognised due to transfer are as follows:

Transfer method of financial assets	**Amount of financial assets derecognised**

IX. FINANCIAL INSTRUMENTS AND RELATED RISKS *(continued)*

3. Transfer of financial assets *(continued)*

At 31 December 2024, the transferred financial assets that continued to be involved in the transfer are as follows:

	Asset transfer method	Amount of assets that continued to be involved in	Amount of liabilities that continued to be involved in
Notes receivable	Endorsed bills	114,931,747	114,931,747
Total		114,931,747	114,931,747

Transferred financial assets that are not derecognised in their entirety

At 31 December 2024, the Group endorsed certain bills receivable accepted by banks (the "Endorsed Bills") with a carrying amount of RMB114,931,747 (31 December 2023: RMB469,469,687) to certain of its suppliers in order to settle the accounts payable due to such suppliers. In the opinion of the Group, the Group has retained substantially all the risks and rewards, which include default risks relating to such Endorsed Bills, and accordingly, it continued to recognise the full carrying amounts of the Endorsed Bills and the associated accounts payable settled. Subsequent to the Endorsement, the Group did not retain any rights on the use of the Endorsed Bills, including the sale, transfer or pledge of the Endorsed Bills to any other third parties. The aggregate carrying amount of the accounts payable settled by the Endorsed Bills during the year to which the suppliers have recourse was RMB114,931,747 (31 December 2023: RMB469,469,687).

Transferred financial assets that are derecognised in their entirety in which continuing involvement exists

At 31 December 2024, the Group endorsed certain bills receivable accepted by banks (the "Derecognised Bills") to certain of its suppliers in order to settle the accounts payable due to such suppliers with a carrying amount in aggregate of RMB2,280,249,072 (31 December 2023: RMB5,539,410,830). The Derecognised Bills had a maturity of 1 to 12 months at 31 December 2024. In accordance with the Law of Negotiable Instruments, the holders of the Derecognised Bills may exercise the right of recourse against any, several or all of the persons, including the Group, liable for the Derecognised Bills regardless of the order of precedence (the "Continuing Involvement"). In the opinion of the Group, the Group has transferred substantially all the risks and rewards relating to the Derecognised Bills. Accordingly, it has derecognised the full carrying amounts of the Derecognised Bills and the associated amounts payable. The maximum exposure to loss from the Group's Continuing Involvement in the Derecognised Bills and the undiscounted cash flows to repurchase these Derecognised Bills is equal to their carrying amounts. In the opinion of the Group, the fair values of the Group's Continuing Involvement in the Derecognised Bills are not significant.

IX. FINANCIAL INSTRUMENTS AND RELATED RISKS *(continued)*

3. Transfer of financial assets *(continued)*

Transferred financial assets that are derecognised in their entirety in which continuing involvement exists (continued)

As part of its normal business operations, the Group entered into an accounts receivable factoring arrangement (the "Arrangement") with some supply chain financial platforms and transferred certain accounts receivable to the Group's creditors in the supply chain platforms or discounted the accounts receivable to a bank. The Group is not exposed to the risk of default of the debtors of the receivables after the transfer. Subsequent to the transfer or discount, the Group did not retain any rights to use the accounts receivable, including the sale, transfer or pledge of the accounts receivable to any other third parties. The carrying value of the receivables transferred under the Arrangement amounted to RMB160,849,602 (31 December 2023: RMB60,574,547). The carrying value of the receivables discounted under the Arrangement amounted to RMB58,551,101 (31 December 2023: RMB116,812,582).

During the year ended 31 December 2024, the Group has not recognised any gain or loss on the date of transfer of the Derecognised Bills. No gains or losses were recognised from the Continuing Involvement, both during the year or cumulatively. The endorsement has been made evenly throughout the year.

3. Level 2 fair value measurements

The Group has entered into derivative financial instrument contracts with various counterparties, mainly financial institutio /Span Lang (en-)0.5 (i)0.6 (t)0.5 hng (en-hc)0.5 (i)0.5 gtitainiaifinancial insuen,l inuin intstaE

Thse models cover multiplel ipuctsobservablel i, mrkets,l icludiang counterpary'sE

X. FAIR VALUE *(continued)*

4. Level 3 fair value measurements *(continued)*

1) Weighted average cost of capital used in the valuation of mining rights

At 31 December 2024, if the weighted average cost of capital used for the valuation of mining rights had been 1 basis point higher, with all other variables held constant, the Company's balance of the equity investment in non-listed company 2 would have decreased by RMB3,109,986. At 31 December 2024, if the weighted average cost of capital used for the valuation of mining rights had been 1 basis point lower, with all other variables held constant, the Company's balance of the equity investment in non-listed company 2 would have increased by RMB3,349,388.

2) Gross profit margin used for the valuation of mining rights

At 31 December 2024, if the gross profit margin adopted for the valuation of mining rights had been 1 basis point higher/lower, with all other variables held constant, the Company's balance of the equity investment in non-listed company 2 would have increased/decreased by RMB1,108,127.

3) Liquidity discount

At 31 December 2024, if the liquidity discount had been 1 basis point higher/lower, with all other variables held constant, the Company's balance of the equity investment in non-listed company 2 would have increased/decreased by RMB655,888.

The Group's financial liabilities that are measured at fair value using Level 3 inputs include bonds payable-preferred shares. The Group's valuation method for bonds payable-preferred shares is the discounted cash flow method, and the key parameters include the discount rate of the bonds and the volatility of the share price, etc. Due to the insignificant balance, the changes in these parameters have an insignificant impact on the Group.

2. Segment reporting

Operating segment

For management purposes, the Group is organised into business units based on geographical locations and has two segments:

The Domestic segment is mainly engaged in business activities in China, including the manufacture and sale of cement, concrete, aggregates, clinker and other construction materials.

The Overseas segment is mainly engaged in business activities outside China, including the production and sale of cement, concrete, aggregates, clinker and other construction materials.

Management monitors the results of its operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit or loss, which is measured consistent with the Group's total profit from continuing operations.

Segment assets exclude deferred tax assets, and segment liabilities exclude deferred tax liabilities.

Pricing for transfers between operating segments is agreed upon by the parties involved with reference to the fair price quoted in transactions with third parties.

2024

	Domestic segment	Oversea segment	Unallocated amounts	Elimination between segments	Total

XV. OTHER SIGNIFICANT MATTERS *(continued)*

3. Natal Portland Cement Company Proprietary Limited PPA allocation

(1) Adjustment of allocation of consideration for acquisition of enterprise equity

On 31 December 2023, a wholly-owned subsidiary of the Group, Huaxin (Hong Kong) International Holdings Limited, acquired 100% equity in Natal Portland Cement Company Proprietary Limited (hereinafter referred to as "NPC"), which is accounted for as a subsidiary. As of 31 December 2023, due to the ongoing evaluation process, the fair values of NPC's identifiable assets and liabilities could only be provisionally determined. In accordance with Article 16 of the Accounting Standards for Business Enterprises No. 20 — Business Combinations, the Group recognised and measured the identifiable net assets of the investee based on the provisional values determined as of 31 December 2023. The Group intends to adjust the recognised provisional values within 12 months from the acquisition date, treating these adjustments as if they were recognised and measured on the acquisition date. The financial statements for the current year have been adjusted in accordance with the relevant standards for the provisional values of the related items, and the relevant statements have been restated. Due to differences between the fair values of the identifiable assets and liabilities of the investee at the acquisition date as confirmed by the evaluation and the provisional values recognised, the relevant items in the Group's consolidated balance sheet as of 31 December 2023, have been retrospectively adjusted based on these differences. For details, please refer to Note 15, 3.(2).

(2) Comparative data

As described in Note XV. 3. (1), the Group has restated the comparative data for the adjustment of allocation of consideration for the equity acquisition of the enterprise in the current year.

The retrospective adjustments to the main items in the Group's consolidated balance sheet for 2023 are as follows:

	Previously stated 2023/12/31	Adjustments	Restated 2023/12/31
Fixed assets	27,752,373,906	343,112,484	28,095,486,390
Intangible assets	15,957,837,101	(939,141,019)	15,018,696,082
Goodwill	769,271,896	414,718,087	1,183,989,983
Deferred tax assets	554,133,589	128,907,921	683,041,510
Other assets	23,766,651,771	—	23,766,651,771
Deferred tax liabilities	1,123,626,046	(162,069,523)	961,556,523
Other liabilities	34,381,759,775	89,236,524	34,470,996,299
Total equity attributable to shareholders of the Company	28,932,949,847	—	28,932,949,847
Non-controlling interests	4,361,932,595	20,430,472	4,382,363,067
